
Revive Eclipse

Total Darkness. Total Privacy. Total Control.

When you need complete blackout — there is only Eclipse. Revive Eclipse is the most powerful privacy product in the Revive lineup. Engineered for total light elimination and absolute visual privacy, Eclipse transforms any glass surface into a solid, opaque barrier at the touch of a button. No light bleeds through. No silhouettes. No compromise.

HOW IT WORKS

Revive Eclipse uses PDLC smart film technology optimized for maximum light elimination. When switched off, it achieves full blackout — blocking light and visibility completely. When activated, it returns to a clear state for normal glass use. The transition is instant and seamless.

- **Power OFF:** Complete blackout — no light, no visibility
- **Power ON:** Clear, functional glass

KEY SPECIFICATIONS

Film Type	PDLC Blackout Smart Film
Blackout Performance	Full light elimination
Privacy State	Total opacity when off
Switching Speed	< 1 second

WHY REVIVE ECLIPSE

- Total blackout capability — the highest privacy performance in the Revive lineup
- Complete visual privacy — no silhouettes, no light bleed
- Instant switching — from full clear to total blackout in under a second
- Replaces blackout curtains, blinds, and shades with a clean, permanent solution
- No maintenance — no fabric to clean, no hardware to break, no cords to tangle
- 15+ year lifespan — a permanent upgrade to your space

IDEAL APPLICATIONS

- Home theaters and dedicated media rooms
- Bedrooms requiring complete sleep-environment darkness
- Medical and healthcare procedure rooms requiring absolute patient privacy
- Boardrooms and executive conference rooms with sensitive discussions
- Photography studios and darkrooms
- Security-sensitive facilities and government or legal environments

When privacy is everything — choose Eclipse.
