# Revive Noir

Bold by Design. Private by Choice.

Dark, dramatic, and smart. Revive Noir is a black smart film that combines a striking dark aesthetic with full privacy switching capability. It makes a statement in any space — deep, bold, and modern — while delivering the same instant clear-to-private functionality as the rest of the Revive lineup.

## HOW IT WORKS

Revive Noir uses PDLC smart film technology with a deep black tint integrated into the film base. In its transparent state, the dark tone adds dramatic contrast and a premium, high-design look. When switched off, it transitions to a dark frosted privacy state.

- **Power OFF:** Dark frosted privacy
- **Power ON:** Dark transparent — bold, dramatic clarity

## KEY SPECIFICATIONS

<b>Film Type</b>	PDLC Black Smart Film
<b>Aesthetic</b>	Deep black / dark tone
<b>Privacy State</b>	Dark frosted when off
<b>Switching Speed</b>	< 1 second
<b>Lifespan</b>	15+ years
<b>Application</b>	Retrofits to existing glass

## WHY REVIVE NOIR

- Distinctive aesthetic — a design statement no standard smart film can make
- Full smart switching — all the privacy functionality of PDLC in a dark format
- Premium, high-contrast look — complements modern, minimalist, and luxury interiors
- Reduces light transmission — naturally dims spaces for better ambiance
- 15+ year lifespan — built to perform as long as it impresses
- Professional installation — tailored to your space's design language

## IDEAL APPLICATIONS

- Home theaters and media rooms
- Executive offices and private suites with a luxury design brief
- High-end residential — bedrooms, walk-in closets, wine rooms
- Nightclubs, upscale bars, and hospitality environments
- Luxury boutiques seeking dramatic window displays
- Photography studios and content creation spaces
