# Revive Pure

## The Pinnacle of Smart Film Clarity

The clearest smart film we offer — and the clearest available. Revive Pure delivers 96% optical clarity in its transparent state, setting the standard for smart film performance. When power is on, your glass is virtually invisible. When power is off, it switches instantly to a clean, frosted privacy state. No haze. No compromise. Just flawless glass.

### HOW IT WORKS

Revive Pure uses PDLC (Polymer Dispersed Liquid Crystal) technology applied directly to your existing glass. With the flip of a switch — or a tap on your phone — your glass transitions from completely clear to fully opaque in less than a second.

- **Power OFF:** Frosted, private
- **Power ON:** 96% crystal clear

### KEY SPECIFICATIONS

<b>Film Type</b>	PDLC Smart Film
<b>Optical Clarity (On)</b>	96%
<b>Privacy State</b>	Fully frosted when off
<b>Switching Speed</b>	< 1 second
<b>Lifespan</b>	15+ years
<b>Application</b>	Retrofits to existing glass

### WHY REVIVE PURE

- Highest clarity in the lineup — the choice when optical quality cannot be compromised
- Instant privacy on demand — no blinds, no curtains, no maintenance
- Energy efficient — reduces heat gain and UV exposure
- Seamless integration with smart home systems, remote controls, or wall switches
- 15+ year lifespan — a long-term investment, not a short-term fix

### IDEAL APPLICATIONS

- Executive offices and private suites
- Luxury residential — master bedrooms, bathrooms, living areas
- High-end retail showrooms
- Medical and dental consultation rooms
- Architectural glass features requiring maximum transparency
