
Revive Veil

The Window Treatment. Reinvented.

The look of blinds. The intelligence of smart glass. No hardware required. Revive Veil is unlike anything else in the smart film market. It simulates the appearance and movement of traditional window shades — within the film itself. No physical blinds. No cords. No dust collectors. No hardware to break.

HOW IT WORKS

Revive Veil uses an animated smart film system that replicates the visual experience of blinds or shades moving across a window — all within the film layer applied to your glass. The effect is controlled electronically, with no moving mechanical parts.

- **Unactivated:** Standard glass appearance
- **Activated:** Shade effect moves and adjusts within the film — no physical hardware

KEY SPECIFICATIONS

Film Type	Animated Smart Film
Effect	Simulated shade / blind movement within film
Mechanical Parts	None
Privacy Level	Partial — shade-like light diffusion
Lifespan	15+ years
Application	Retrofits to existing glass

WHY REVIVE VEIL

- Truly unique — no other product on the market delivers this experience
- Zero hardware — no rods, brackets, cords, or mechanical components
- No dust accumulation — unlike fabric blinds and shades, Veil lives in the glass
- Sophisticated aesthetic — the clean look of modern shades with none of the visual clutter
- Perfect for design-forward spaces that demand innovation as much as function
- 15+ year lifespan — far outlasts any traditional window treatment

IDEAL APPLICATIONS

- Luxury residential — living rooms, dining rooms, master suites
- Hospitality — boutique hotels, upscale restaurants, spa environments
- High-end retail where window displays demand dynamic, eye-catching visuals
- Design showrooms and architectural showcases
- Creative studios and content production spaces
- Any space where traditional blinds or shades feel too ordinary

Experience window treatments as they were meant to be.
